

Saturday, January 30th is National Seed Swap Day

I'm organizing a seed swap by mail.

Email me (mastergardener at thefarmersgarden.com) the following information by 01/29/2021 to participate:

- Name (required)
- Mailing address (required)
- USDA planting zone

How It Works:

Your name will be added to a group of two or three participants. I'll email you the names and addresses of the people in your group on Seed Swap Day.

You're on your honor to mail each person on your list at least one variety of seeds. They're on their honor to mail you seeds in return. Vegetable, herb and flower seeds can be purchased or saved from your garden. Be sure to label the variety.

Rules:

The seed swap is open to gardeners with US mailing addresses only.

The Farmer's Garden is not responsible for enforcing fairness and participation rules. This is an honor system event.

Have fun!
